May, 20

Projects

Disease Prediction Application

Sep, 24 - Present

- Developing a Machine Learning-powered application that predicts potential diseases based on user health data and symptoms.
- Real-time data processing for improved accuracy and early disease detection.
- Aiming to assist individuals and healthcare providers in proactive health management and preventive care.

Brain Tumor Detection

Aug, 23 – Nov, 23

- Developed a Deep Learning –based system to detect brain tumors from MRI scans using Convolutional Neural Networks (CNNs).
- Trained and optimized the model for high accuracy classification of affected and unaffected scans.
- Enabled faster and more reliable diagnosis, assisting doctors in early detection and timely patient care.

Skills

Technical Skills: Java, Python, Microsoft Excel, Power BI, AWS.

Soft Skills: Communication, Collaboration & Team work, Time Management, Analysis.

Certification:

- Business Analyst certification by Finlatics, Mar 2025.
- The Bits and Bytes of Computer Networks by Google (Coursera), Dec 2023.
- Fundamentals of AI and ML (Vityarthi), May 2023.
- Python Essentials (Vityarthi), Jan 2023.

Language: Hindi, English.

Achievements

- Awarded with the STARS Scholarship of VIT Bhopal University.
- Secured 9th rank in State Level Merit List in class 10 and District Girl Topper in class 12.
- Achieved Gold Medal in Vedic Mathematics Level - I certification by AVAS Academy.

Extra - Curricular

Pahal Organization

Aug, 23 – May, 24

- Organized and conducted Primary level classes for worker's children.
- Aimed to teach 30+ Students basic literacy and numeracy along with sports and art activities.

Painting Competition

- Won Gold Medal in the T-shirt Painting Competition at Advitya 24 (Inter University Techno – Cultural Fest).

Feb, 24
